

DOUGLAS FIR AND HEM-FIR LUMBER

FEDERAL WAY, WASHINGTON 1.800.426.0870 ■ 253.927.7900

Weyerhaeuser's precision manufacturing, process control, and mill direct supply, give you consistent, reliable lumber, delivered when you need it, where you want it. Our third-party certification of Weyerhaeuser timberlands means you're working with a renewable product that's helping fuel the green building revolution.

Whether it goes into stick-built construction or pre-built structural components, Weyerhaeuser lumber delivers all the time honored benefits of wood—and then some.

- Precision-graded for consistent quality
- Harvested from SFI-certified timberlands
- Economical and readily available
- On-time delivery for reduced cycle times and enhanced inventory management

BAUMAN - PLIB O-86

100% Green
2x4 - 2x6 Green Douglas Fir
2x4 graded under Structural Light Framing rules
Lengths to 20'

COTTAGE GROVE - PLIB O-31

100% Green
2x4 - 2x10 Green Douglas Fir
(Some #1 & Btr and Sel Str pulled)
Lengths to 20'

LONGVIEW - PLIB W-50

2x4 - 2x12 Green Douglas Fir/KDHT Hem-Fir
Visual and MSR grades pulled
2x4 graded under Structural Light Framing rules
Lengths to 20'

RAYMOND - PLIB W-41

100% Kiln Dried
2x4 - 2x10 KDHT Hem-Fir
Visual and MSR grades pulled
Lengths to 20'

(STARTUP EARLY 2008)

100% Green
2x4 - 2x6 Green Douglas Fir
Lengths to 12'
PET Studs

WARRENTON - PLIB O-83

100% Kiln Dried
2x4 - 2x12 KDHT Hem-Fir
2x6 - 2x12 Sel Str pulled
Lengths to 20'

DOUGLAS FIR

Douglas Fir is a straight grained and resilient timber with high strength to weight ratio as well as quick availability and ease of use. Its light rosy color is set off by a remarkably straight grain pattern making it a premium building product specified by architects, engineers and builders for a wide range of construction applications. Douglas Fir is also valued for its dimension stability and its high specific gravity which provides excellent nail-holding capability.

HEM-FIR

As a framing material for residential, commercial and industrial buildings, Hem-Fir lumber is valued for its strength, versatility, and ease of use. Hem-Fir is light in color varying from a creamy, nearly white to a light, straw-brown color. Its fiber characteristics are ideally suited for the load-bearing and load carrying requirements of residential and light commercial, provide outstanding pressure-treating performance and offer exceptional wear resistance on high traffic areas in outdoor applications.
